To the FDA:

I receive a compounded prescribed drug from a pharmacy in another state. My physician has approved of this, and had written the script for it last winter. I have been made aware of the Memorandum of Understanding and the Compounding Section 503A of the Modernization Act, and I'm writing to ask that the Mou be amended. Without an amendment I am afraid that I will no longer be able to receive my prescription. My doctor will not be able to order it for me because of the restrictions of delivery.

As a consumer who depends on access to this compounded drug that I can't get in the state where I live, I feel that unless Docket Number 98N-1265 is amended my rights, the rights of a compounding pharmacist, and the rights of my physician will be infringed.

Sincerely,

Barbara Shipman
